CYB102 Project 1

( [Instructions Page](#))

 Student Name: Giancarlo Montes

 Student Email: giancarlo.montes001@mymdc.net

Reflection (Required)

 **Reflection Question #1:** If I had to **explain “what are .pcap files” in 3 emojis**, they would be...
(Feel free to put other comments about your experience in this unit here, too!)

Reflection Question #2: How does Wireshark help us to analyze network traffic?

Wireshark helps us to analyze network traffic by filtering, capturing packets and being able to analyze them and look for specific things such as ipaddresses, email addresses, passwords and so on.

 **Shoutouts:** Share appreciation for anyone who helped you out with this project or made your day a little better!

Shoutout to Group members in Grouping #17!

Required Challenges (Required)

Item #1: The bad apple's IP address:

10.6.1.104

Wireshark packet capture showing SMTP traffic. The packet list displays multiple SMTP messages from source IP 10.6.1.104 to destination IP 98.137.159.26. The packet details pane shows the structure of an SMTP packet, including Ethernet II, IP, and SMTP layers.

Hi!

I know that: ganjaman - is your password!

Your computer was infected with my private malware, RAT, (Remote Administration Tool).

The malware gave me full access and control over your computer, I got access to all your accounts (see password above) and it even was possible for me to turn your webcam on and you didn't even notice about it.

For a long time I was spying on you through your webcam and recorded MANY EMBARRASSING VIDEOS OF YOU!!! Hahaha... you know what I mean!

I collected all your private data, pictures, documents, videos, absolutely everything and I know about your family!

```

I collected all your private data, pictures, documents, videos, absolutely everything and I know about your family!

To not leave any traces, I removed my malware after that.

I can send the videos to all your contacts (email, social network) and publish all your private data everywhere!!!

Only you can prevent me from doing this!

To stop me, pay exactly 1000$ in bitcoin (BTC).
If you don't know how to buy bitcoin, go to: www.paxful.com ( there are over 300 ways to do it ).
Or Google - "how to buy Bitcoin?"
If you want to create your own wallet to receive and send bitcoin with the current rate, register here: www.login.blockchain.com/en/#/signup/
Or send the exact amount direct to my wallet from www.paxful.com

```

6.

Item #3: An explanation of how you went about finding the bad apple from just the .pcap files:
(Please be specific about what filters/searches you used!)

1. I opened my c.pcap files
2. I filtered: ("smtp.data.fragment")

No.	Time	Source	Destination	Protocol	Length	Info
714	2.141524	10.6.1.104	98.137.159.26	SMTP/I	59	from: Your Life-YourLife71@2261.com, subject: I won't warn you again! - 931rish89, (text/plain)
788	2.421405	10.6.1.104	98.137.159.26	SMTP/I	59	from: Your Life-YourLife69@2844.com, subject: Infected your computer! - dcjDik, (text/plain)
839	2.545584	10.6.1.104	98.137.159.26	SMTP/I	59	from: Your Life-YourLife42@9083.com, subject: I got everything! - 121212, (text/plain) .
904	2.732556	10.6.1.104	98.137.159.26	SMTP/I	59	from: Your Life-YourLife56@7082.com, subject: Read carefully! - dayrit, (text/plain) .
948	2.780453	10.6.1.104	98.137.159.26	SMTP/I	59	from: Your Life-YourLife1@3903.com, subject: I can destroy everything! - 12345678, (text/plain) .
965	2.811168	10.6.1.104	98.137.159.26	SMTP/I	59	from: Your Life-YourLife02@7678.com, subject: Your password! - nafd11, (text/plain) .
998	2.890149	10.6.1.104	98.137.159.26	SMTP/I	59	from: Your Life-YourLife59@3510.com, subject: Data of you and your family! - peace, (text/plain) .

3.

4. Once I've filtered SMTP traffic, I can check for potentially malicious emails by examining: sender's email address, email header, and subject lines.

5. I looked into the phishing emails info by right clicking -> follow -> TCP stream, and getting a better look at bad apple emails.

No.	Time	Source	Destination	Protocol	Length	Info

11. Finally we get a better breakdown look at our bad apple phishing email:

File Edit Search View Document Help

1 Received: from bluscoe ([117.254.254.184]) by 50683.com with MailEnable ESMTP; Sat, 1 Jun 2019 08:35:13 +0000
 2 Received: (qmail 50683 invoked by uid 506);
 3 From: YourLifeYourLife49@1218.com>
 4 To: dived_09@yahoo.com
 5 Subject: Videos of you! - login
 6 Date: Sat, 1 Jun 2019 08:35:13 +0000
 7 Message-ID: <506833.702701@50683.com>
 8 Mime-Version: 1.0
 9 Content-type: text/plain; charset=utf-8;
 10
 11 Hi!
 12
 13 I know that: login - is your password!
 14
 15 Your computer was infected with my private malware, RAT, (Remote Administration Tool).
 16
 17 The malware gave me full access and control over your computer, I got access to all your accounts (see password above) and it even was possible for me to turn your webcam on and you didn't even notice about it.
 18
 19 For a long time I was spying on you through your webcam and recorded MANY EMBARRASSING VIDEOS OF YOU!!! Hahaha... you know what I mean!
 20
 21 I collected all your private data, pictures, documents, videos, absolutely everything and I know about your family!
 22
 23 To not leave any traces, I removed my malware after that.
 24
 25 I can send the videos to all your contacts (email, social network) and publish all your private data everywhere!!!
 26
 27 Only you can prevent me from doing this!
 28
 29 To stop me, pay exactly 1600\$ in bitcoin (BTC).
 30 If you don't know how to buy bitcoin, go to: www.paxful.com (there are over 300 ways to do it).
 31 Or Google - "How to buy Bitcoin"
 32 If you want to create your own wallet to receive and send bitcoin with the current rate, register here: www.login.blockchain.com/en/#/signup/
 33 Or send the exact amount direct to my wallet from www.paxful.com
 34
 35 My bitcoin wallet is: 1CWmmuF8dHt7HBGxSRKKLgg9QA2GmE3UyL
 36
 37 Copy and paste my wallet, it's (cAsE-sensitive)
 38
 39 After receiving the payment, I will delete the video and everything else and we will forget everything, you will never hear from me again...BUT if you don't pay and simply ignore this email, I promise, I will turn your life of your family into HELL and you will remember me, for THE REST OF YOUR LIFE!!!
 40
 41 I give you 4 days to get the bitcoins and pay.
 42
 43 Since I already have access to your account, I will know if this email has been already read.
 44 To make sure you don't miss this email I sent it multiple times

Stretch Challenge (Optional)

Item #1: Three screenshots of three different .eml files showing the content of phishing emails you identified:
